## DETAILED ACTION

### *Election/Restrictions*

Newly submitted claims 21-37 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the original claims (1-20) were directed to a vertebral implant with a flexible element for engaging vertebrae. The new claims are directed to a spinal implant with discrete plateaus on the outward surface. These are clearly two different embodiments.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 21-37 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The amendment filed on 11/14/05 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because the original embodiment included a feature that was flexible and the new feature "plateaus" are not flexible.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
